

# **Musgrave Operating Partners Ireland**

## **Gender Pay Gap Report 2022**

### **Introduction**

Musgrave Operating Partners Ireland (MOPI) is a part of Musgrave, Ireland's leading food retail, wholesale, and foodservice company. The MOPI part of the business includes some of Musgrave's company-owned stores and support colleagues.

At MOPI, we have already made strides forward in improving female representation in all roles. Our senior management team is made up of 50% women and 50% men, an increase from 20% in female representation since 2018. We will continue to work to promote equal opportunities across our business. We strive to be a forward-looking, innovative company that is a positive place to work for all our colleagues.

We welcome the introduction of Gender Pay Gap reporting by the Government. It aligns with our values, it makes business sense, and most importantly, it is the right thing to do.

## Required Information

(iii) the <b>upper middle</b> remuneration quartile pay band, or	44%	56%
(iv) the <b>upper</b> remuneration quartile pay band, who are of the male gender	70%	30%

## **Understanding Our Gender Pay Gap**

In MOPI, all colleagues receive the pay rate that is appropriate to their role and reflective of their skills and experience, regardless of gender.

Our gender pay gap exists due to the following factors:

- First, the majority of our store managers are male. This is also the reason for the difference in mean bonus remuneration.
- Secondly, there are more males in senior positions within our support functions.
- Thirdly, there are more males in skilled roles such as drivers, butchers, and bakers. These roles have been traditionally male dominated and attract higher rates of pay than less skilled roles.
- Fourthly, we offer flexible part-time working options, and many women opt to avail of these options.
- Finally, there is a number of men who have long service, and this is reflected in their remuneration packages, including some bonus arrangements.

## **Our Actions to Address the Gap**

Reducing the gender pay gap has been a priority in our people strategy in recent years. We already have a number of actions underway. These include:

- An Employee Resource Group (ERG) focused on gender that supports the identification of strategies and actions to remove any barriers to inclusion.
- Reduced hours of working per week for store management teams to promote a better work/life balance and make the roles more attractive to a wider range of applicants.
- Facilitating and encouraging hybrid, remote and flexible working where possible.
- Actively seeking to improve diversity in all roles through creating an inclusive and welcoming work environment, advertising campaigns, and supporting existing colleagues to develop and grow within MOPI.
- Updating a wide range of policies to foster inclusivity and diversity and introducing new policies.
- Unconscious bias training for all people managers.
- Offering mentoring to support the development and progression of our colleagues
- Leveraging the expertise, learnings, and resources of the LEAD Network (Leading Executives Advancing Diversity). Musgrave was the first Irish company to partner with the LEAD Network which aims to attract, retain and advance women in the retail and consumer goods industry in Europe through education, leadership and business development.
- We launched GenRep, our shadow youth Board, in 2021. It is made up of nine young colleagues aged between 22 and 30 who are from a mix of genders, backgrounds and experiences. GenRep amplifies the voice and ideas of the next generation and has been tasked with bringing new ideas and positive disruption to the business.
